

# We can tell you a lot about fishing, but we can't tell you *that*

And obviously what we can't tell you is exactly where most of the prize fish shown throughout this supplement were caught. Don't get mad at us. We TRIED to get the photo submitters to give up the info. But alas, more oft' than not we were laughed at. Laughed at quite loudly, by the way. But we expected that.

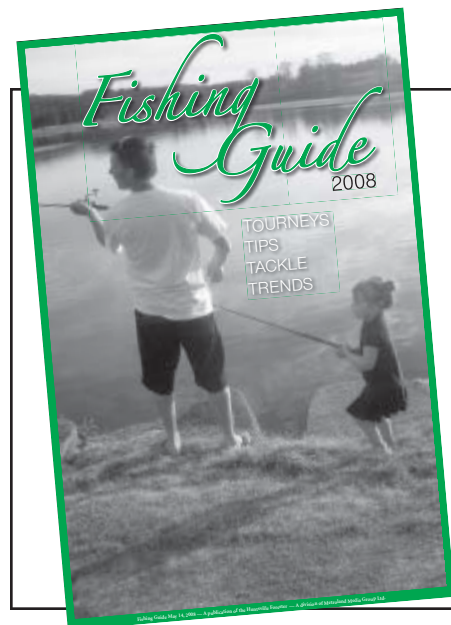

So while we can't give you the lake information, what we can offer you is proof-positive that angling in our area is a fun pastime. It's one that nets some pretty nice trophy fish and it's one that draws tons of visitors to our area every season.

Of all the pics that came in when we put out a call for shots of residents having fun angling, one surely stood out. It now graces our cover, and the sight of Huntsville resident John Turnbull fishing with his daughter Lexi out at Deerhurst Resort is pretty 'awwwww' inspiring, don't you think? The picture was submitted by proud grandmother Judy Evans.

Turn the pages and you'll find information on various tournaments going on over the next few months, some tips on gear and information on rules and regulations you should know.

If we've missed writing about a favourite tournament of yours, or if you'd like to submit a shot for next year's guide, drop us a line. We'd love to hear all about your fishing tales.

**SPOT THE ANGLER:** To say it was a wee bit foggy at this Muskoka Bassmaster's tourney on 3 Mile Lake in Windermere last year would be an understatement. It was so foggy, in fact, participants delayed their departure and sat floating in their boats waiting for the fog to lift. Andre Carriere, who submitted this pic, says "It was a very cool feeling, like floating in mid-air."
